Project Title: Snoopy Website

I'd like to build this site as multiple pages, rather than a long, single page website. Typical site navigation probably across the top. I think there is plenty of content and photography to build out individual pages.

- **Home Page/Introduction** – Introduce the character of Snoopy and his personality traits
- **History** - Explain how the character of Snoopy was created, how the character has evolved, and about his first *Peanuts* appearance
- **Relationship with other *Peanuts* Characters** - How Snoopy interacts with other characters in the comic strip, detailing which characters he likes and dislikes
- **Siblings** - Snoopy has 7 siblings; This page will talk about all seven, with a focus on two recurring siblings, Belle and Spike
- **Snoopy in Space** - Snoopy has served as a mascot for NASA and their missions. This page will discuss his role in NASA and how his image was used
- **Fun Facts** - Various fun facts that don't necessarily fit one category (i.e. Snoopy was honored with a star on the Hollywood Walk of Fame in 2015)
- **Sources** – this page will just list sources, including the Wikipedia page, as well as other sources for photography, and any other credits that need to be provided
